- Š Senators expressed concerns
- the omission of a direct link to the website
  - the omission of a fast-loading page
  - the narrow use of a page that all faculty are both familiar and unfamiliar with
  - the use of the term “Institutional” “Colleges”
  - quality control over the content, particularly the diversity and quality of the stories
  - the limited involvement of faculty in the design and going forward (the names of Crowson, Frank Holm, and Mooney)
  - the focus of the “Responsible”
